

iiNet Business VOIP

Talk is cheap

If you want to start making great savings on your business call costs, get VOIP into your vocabulary. VOIP stands for Voice over Internet Protocol, and works just like your traditional landline service but at a fraction of the cost.

Anyone can call a VOIP number, it's really easy to setup, and because the calls are run through a superfast iiNet broadband connection, call quality is just like your old phone line.

Features

• No fee for ii to ii calls

Call your other offices on iiNet VOIP and we won't charge you a cent, even if they're on the other side of the country.

• Track your calls online

No waiting til the end of the month to see who's rung who.

• One invoice

Internet + phone in one bill – let's keep it simple.

• Priority support

From our dedicated Business team (6am to 6pm WST Mon-Fri).

• 15c untimed calls to anywhere in Australia

Call any landline in Australia, talk as long as you want, and all you'll pay is 15c.

Talking hardware

To start making VOIP calls, all you'll need is either a VOIP adaptor (an ATA), or a VOIP enabled modem/router. Connect either of these to a standard phone and you're away.

Business VOIP rates	
Line rental	\$9.95
ii to ii	included
Local calls	15c untimed
National calls	15c untimed
International calls	From 5c per minute
Land to national mobile rates	29c per minute

• **Only 5c Per Minute to;** UK, USA, China, New Zealand, Singapore, Malaysia, and many more.

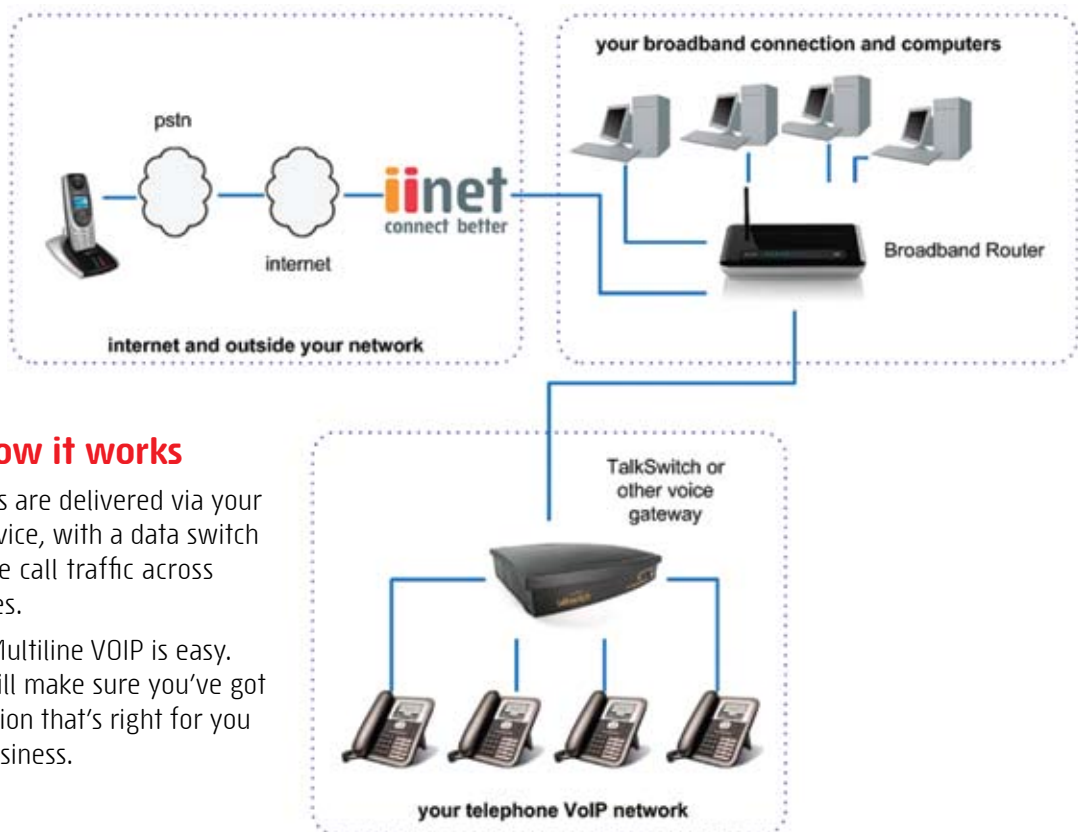

Extra features

• **Voice mail** • **Call waiting** • **Voice messaging to email** • **Three way calling** • **And many more**

iiNet Business Multiline VOIP

Multiline VOIP

If you've got more than one landline, or see yourself needing to add more in the future, Multiline VOIP is a great solution - it's everything previously mentioned but multiplied. Change all your lines to VOIP, and you'll not only save more money, you'll also see the benefits of more efficient networking.

Here's how it works

All your calls are delivered via your Internet service, with a data switch directing the call traffic across multiple lines.

Setting up Multiline VOIP is easy. Our team will make sure you've got a VOIP solution that's right for you and your business.

Lines	Multiline cost
1-2 lines	\$9.95 for 1st and 2nd line
3-9 lines	\$7.95 for 3rd to 9th line
10+ lines	Available on request

Where do I sign, or multi-sign?

To sign up or find out more information on our business VOIP products, check out www.iinet.net.au/business or give our priority business support team a call on **13 24 49**.

Plant VOIP and watch your business grow.
