

Naked DSL For Business

If you love the Internet, why waste money on your landline phone? iiNet Naked DSL is full speed ADSL2+ broadband with no landline phone service required and a built-in broadband phone service called iiTalk.

Naked DSL plans

plans	down/up speed	quota	broadband cost
naked business 1	ADSL2+ speeds	10GB	\$84.90
naked business 2	ADSL2+ speeds	50GB	\$104.90

naked business 4	ADSL2+ speeds	150GB	\$154.90
naked business 5	ADSL2+ speeds	200GB	\$184.90
naked business 6	ADSL2+ speeds	350GB	\$324.90
naked business 7	ADSL2+ speeds	500GB	\$624.90

all naked DSL business plans come with:

- iiTalk broadband phone service
- 1 static IP
- 24/7 priority business service and support
- No excess download or upload charges
- 20 free email addresses and 60MB web space
- Free virus & spam email protection
- Free computer support

ADSL2+ explained

As part of our commitment to providing better broadband and phone services Australia-wide, we've built our own world class ADSL2+ network - the iinetnetwork - which allows us to offer the fastest speeds your line can handle (up to 24,000 kbps).

all about your quota

If your monthly Naked DSL quota is reached, your down/up speed is slowed to 64/128kbps for the rest of your billing month. You will not be charged excess fees for exceeding your monthly quota. Both downloads and uploads count towards your Naked DSL monthly quota. Our peak period is 12noon to 2am, off peak is 2am to 12noon.

iiTalk

Every Naked DSL includes a free broadband phone service called iiTalk giving you free local and national calls and cheap calls to pretty much everywhere else. Take your existing phone number over to iiTalk or start afresh. Your friends and family still call you the same way as usual, just plug your phone or wireless handset into your VOIP-enabled broadband modem instead of the wall.

plan type	iiTalk rates
local calls	free
national calls	free
mobile	29c per minute
international	international rates from 5c a minute
1300 and 13 numbers	20c untimed

extra features included free with iiTalk:

- Call Waiting
- Voice Mail
- Voicemail forwarding to email
- Three way calling
- And many more!

iiTalk fair use policy

A fair use policy applies to free local and national calls on iiTalk. This fair use policy allows us to offer free calls Australia-wide for people who make normal amounts of phone calls. To do this we have to restrict people who use the service excessively.

What is an excessive user? Check out the fair use policy at http://www.iinet.net.au/about/cra/fair_use_policy.html to find out more.

fair contract guarantee

Our Naked DSL fair contract guarantee lets you change between our Naked DSL plans at any time without breaking your contract. When upgrading, we will absorb the administration cost. When changing to a plan of equal or lesser value, a small administration fee applies.

If you end your contract early, you will only be required to pay back any promotional offer or hardware discount we applied for making a 24 month commitment.
