

Firmware Installation Guide: F1PI241EGau

Time required: 10 minutes

iinet
connect better

BELKIN

The instructions below outline how to update the firmware on the Belkin 4-port wireless modem/router. By updating the firmware, you will be able to share your internet connection securely. **IMPORTANT:** You must have downloaded the latest Belkin firmware from <https://iinet.net.au/products/business/yourhotspot.html> to your computer.

Getting Started

STEP

1

Connect a Network/Ethernet cable from your computer to LAN 1 on your Wireless Modem

STEP

2

Open your browser and type `http://10.1.1.1` into the address bar.

Note: If you have changed the LAN address of your modem from its default value, you will need to put in the appropriate address here.

If you find the default doesn't work but you don't know what the right value is, check your network settings and try the IP address of your "default gateway".

STEP

3

Log in using the admin password of your modem (the default password is "admin").

A screenshot of a login screen with an orange background. The title "Login Screen" is at the top. Below it is a "Password:" label followed by a text input field. At the bottom are two buttons: "LOGIN" and "CANCEL".

STEP
4

Click on the "ADVANCED SETUP" tab on the left hand side panel.

www.iinet.net.au

ADSL Parameters

Username:
Password:

STEP
5

Click on the "TOOLS" tab on the left hand side panel, then on "Firmware Upgrade".

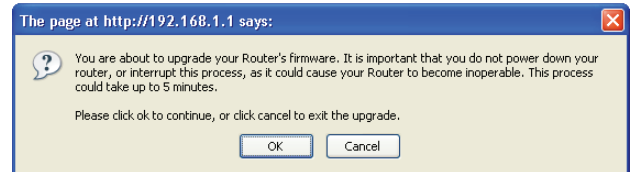

Click on the browse tab and select the file containing the new firmware from the folder you saved it in.

TOOLS
DDNS
TOOLS
» Configuration Tools
» Firmware Upgrade
» Reset
STATUS

STEP
6

Click on "SAVE SETTINGS". You will be prompted to confirm the upgrade.

It is IMPORTANT that you do not power down your modem

STEP
7

The Firmware is being flashed.
Do not power down your modem

Processing, please wait.....

STEP
8

Once completed you will be taken back to the "Login Screen" where you will need to Login using your password (the default password is admin)

Login Screen

Password:

LOGIN CANCEL

STEP

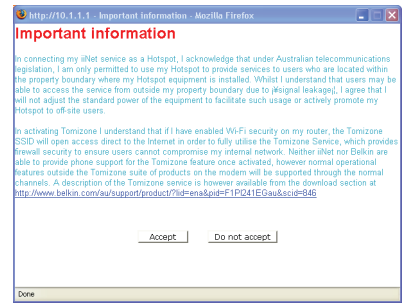

9

Click on the “Tomizone” tab on the left hand side panel and ensure that the Tomizone Wireless Hotspot is checked as “Enable”.

Once you click on “Enable” you will be presented with an “Important information” screen, read through and click “Accept” if you agree.

You can nominate the name of your hotspot in the SSID field or simply leave as the iiNet default name.

Important: Click on “SAVE SETTINGS”.

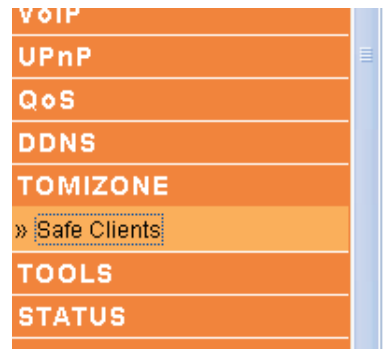

STEP

10

Click on “Safe Clients” on the left hand side panel.

To ensure your wireless device does not need to go through the Tomizone portal you need to ensure it is associated/connected to your modem

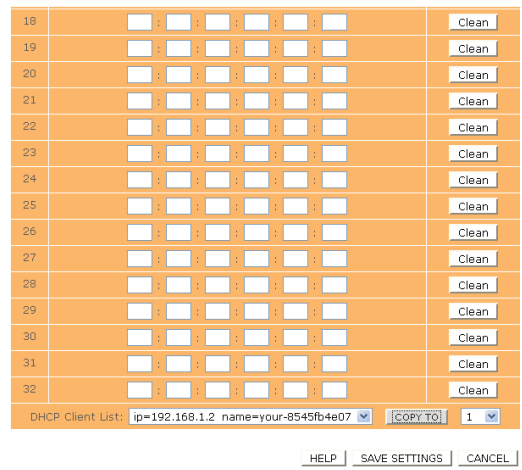

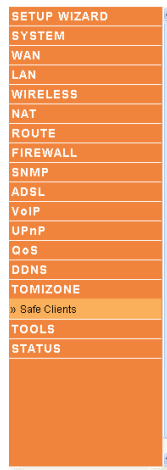

STEP

11

Select your device from the DHCP Client list drop down menu. This will associate your wireless device to the “Safe List” by clicking on “COPY TO”.

Click on SAVE SETTINGS

Once saved click on “Tomizone” on the left hand side panel to return to the Tomizone activation.

STEP

12

Click on “Activate”, which will allow you to assign your modem to your Tomizone account. If you do not have an account you will be able to sign up.

Tomizone Settings

With Tomizone, you share your fast Internet connection to make money. When activated, you join the global Tomizone Wi-Fi Hotspot Network. Complete the settings below to get started on Tomizone.

Tomizone Wireless Hotspot	<input type="radio"/> Enable <input checked="" type="radio"/> Disable
SSID	Tomizone iNet
Channel	5

Tomizone Ports

Which LAN ports should be Tomizone Ports? Use them to connect other Wi-Fi access points, building cables (e.g. Hotel) or Internet kiosks. For more information, click on [Help](#).

LAN2	<input type="checkbox"/> Tomizone Port
LAN3	<input type="checkbox"/> Tomizone Port
LAN4	<input type="checkbox"/> Tomizone Port

Activating this Tomizone associates it with your Tomizone account. This is important, so we know where to send you money! (Your Router ID is 00-00-00-00-00-00)

Status: **Not Yet Activated**

Activate my Tomizone

To help users find your Tomizone we strongly recommend indicating the location of your Tomizone on a map. Would you like to show this hotspot on a map?

Yes; let me specify my location on a map
Recommended - you'll be able to choose the location of your Tomizone on the next page.

Yes; I already know my coordinates
Select this if you have a GPS device and know your exact longitude and latitude.

No, don't show this Tomizone on a map

Next

STEP

17

Once activated, you should be able to see the Tomizone ID in the Wireless Connection settings of your wireless device. Open your web browser when connected to this SSID and you should get a welcome screen from your Hotspot. Anyone can log into your public Hotspot and you will start earning revenue from paying customers.

You can also give free internet access to your friends by simply adding them to your "Friends List" on your account, all you need is their Tomizone username. For more information, login to your account at Tomizone and click on "Friends List" in your main account screen.
